Luis Santiago

Software Developer | Web Developer
Juana Diaz, Puerto Rico

Summary

Hi, I'm Luis Santiago – a passionate Software Developer who loves building innovative, user-friendly web applications. I'm always eager to learn and grow, and I'm on the lookout for exciting opportunities in tech.

What I Do:

- Develop and maintain responsive web applications using JavaScript, TypeScript, and modern frameworks.
- Collaborate with cross-functional teams to build full-stack solutions that make an impact.

What I'm Looking For:

- New opportunities as a Front End Developer, Software Developer, or in any role that challenges me to grow and innovate.

A Bit About Me:

- I enjoy solving complex problems, learning new technologies, and collaborating with talented teams.
- I'm a believer in growth, continuous improvement, and making technology work for people.

Get in Touch!

Feel free to reach out to me at lasc1026@gmail.com or check out my portfolio at lusanco.github.io. I'd love to connect and explore how we can work together!

Experience

ZOMIO Inc.

4 years 7 months

Frontend Web Developer

June 2022 - September 2023 (1 year 4 months)

Remote

- Created and redesigned websites and web applications, including deploying the company website on HostGator with SSL setup and domain configuration for secure performance.
- Developed MVPs for MQTT-powered dashboards, handling the software side and receiving data from MQTT-enabled hardware via a broker.
- Collaborated with cross-functional teams to deliver high-quality products using modern web technologies.

Administrative Assistant

March 2019 - June 2022 (3 years 4 months)

Remote | Barceloneta, PR | Ponce, PR | York, PA

- Collaborated with the CEO on organizational strategy and daily operations to ensure efficiency.
- Managed executive calendars, prioritized tasks, and facilitated communications across teams.
- Handled financial documentation, maintained records, and performed minor accounting duties.

Five Below

Sales Associate

November 2017 - March 2018 (5 months)

York, PA

- Delivered excellent customer service by assisting with inquiries and product recommendations.
- Operated cash register, processed transactions, and handled payments accurately.
- Maintained product displays, restocked merchandise, and ensured store cleanliness.
- Supported loss prevention by reporting security concerns and following company policies.

- Collaborated with team members to achieve store goals and foster a positive work environment.

Dewey University

Computer Technician Assistant

January 2017 - July 2017 (7 months)

Juana Diaz, PR

- Maintained and cleaned computers across multiple departments, ensuring optimal functionality.
- Installed and updated software, operating systems, and drivers on campus computers.
- Performed regular backups and cloned hard drives to secure data.
- Assisted with Wi-Fi network maintenance and light repairs on printers and computers.
- Supported inventory management, including assigning static IP addresses to devices.
